

"walk as children of light"

EMMANUEL CHRISTIAN SCHOOL

"Kia rite ta koutou haere ki ta nga tamariki o te marama"

22 August 2024

Dear Parents and Caregivers,

We are thrilled to share an exciting new project that we believe will bring great educational value to our school community: the creation of a school community garden. This garden will be a special place where students from both the middle school block and the juniors can come together, learn, and grow.

A school garden offers a unique opportunity for our students to connect with nature and each other. It will be a living classroom where they can engage in hands-on learning, develop a sense of responsibility, and experience the satisfaction of nurturing and caring for plants. It's a space where students from both the middle school block and the junior classes can all participate in nurturing and caring for something special.

To bring this vision to life, we need your support. We aim to raise \$1,200 to cover the costs of creating concrete pathways, ensuring the longevity of our garden. Your contribution will have a lasting impact for years to come. Any donation, regardless of size, will help us create this wonderful space for our children.

How to Donate:

Monetary Donations: You can make donations by Online banking (please use the reference 'Garden donation' 06-0821-0208431-00) or at the school office. If you would like a receipt please let us know.

Garden Tools or Materials: While we already have sponsorships from various companies, if you have any extra garden tools or materials that are unneeded, they will be of great help.

Thank you from the bottom of our hearts for your generosity and support. Together, we can cultivate not only plants but also a love for learning and a sense of stewardship in our students.

Sincerely,

Faith Seow, Sustainability and wellbeing leader
Tom Littlejohn, Deputy principal

Thank you for helping us grow!

Feel free to reach out if you have any questions or need more information.
