

Supporting CyberSafety @ Greenhithe School

March 2023

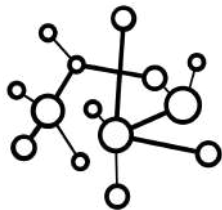

Objective (15mins!)

1. Provide an overview of how N4L supports the safe use of the internet to NZ schools
2. Raise understanding of online safety and security services underpinning **CyberSafety @ Greenhithe School (onsite)**

N4L in a nutshell.

Established in 2012, N4L is a Crown-owned technology company that connects schools and kura across Aotearoa to faster, safer internet; on behalf of the Ministry of Education.

Connecting

2.5k schools and kura to teaching & learning **opportunities** via the internet

Advanced Technology

That delivers an **industry leading** and resilient network that's safe and secure

Cybersecurity Experts

Proactively protecting you from **online safety** and security threats

Support

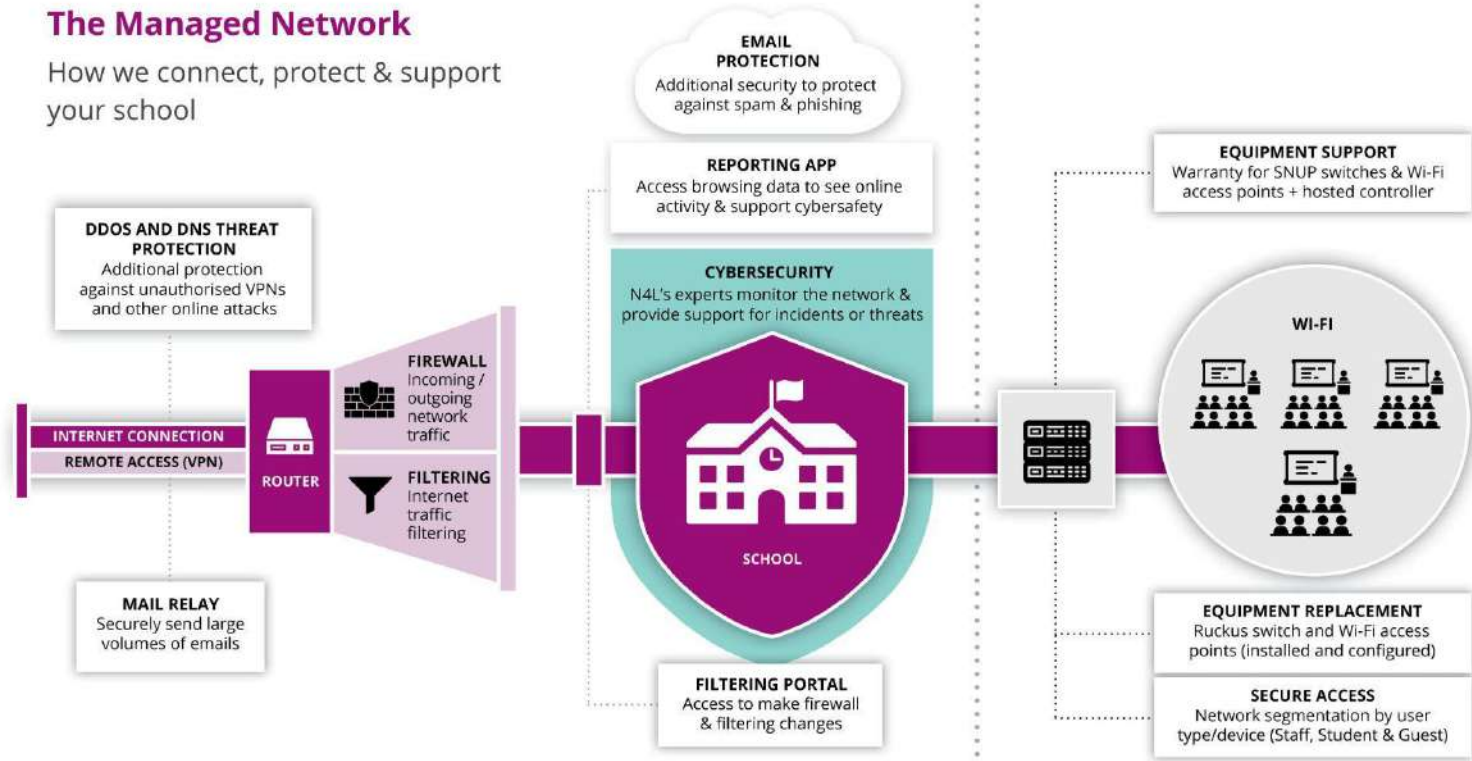

Experts that are dedicated to **supporting** the Education sector

We're here to connect, protect and support kura, enabling kaiako and ākonga to teach and learn safely online.

It's complicated.

The Managed Network

How we connect, protect & support your school

Recommended Settings

SAFE

Web Filtering

SafeSearch (Google)

SECURE

Large Scale Attack (DDOS) Protection

Firewall (Incoming/Outgoing)

Email Protection

Hacking

P2P File Sharing

Illegal or Unethical

Spam URLs

SAFE & SECURE

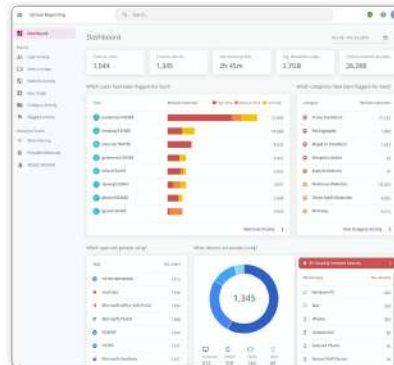

Expert advice, standards & recommendations

95% of schools adopt N4L's
'Safe & Secure Internet' standard

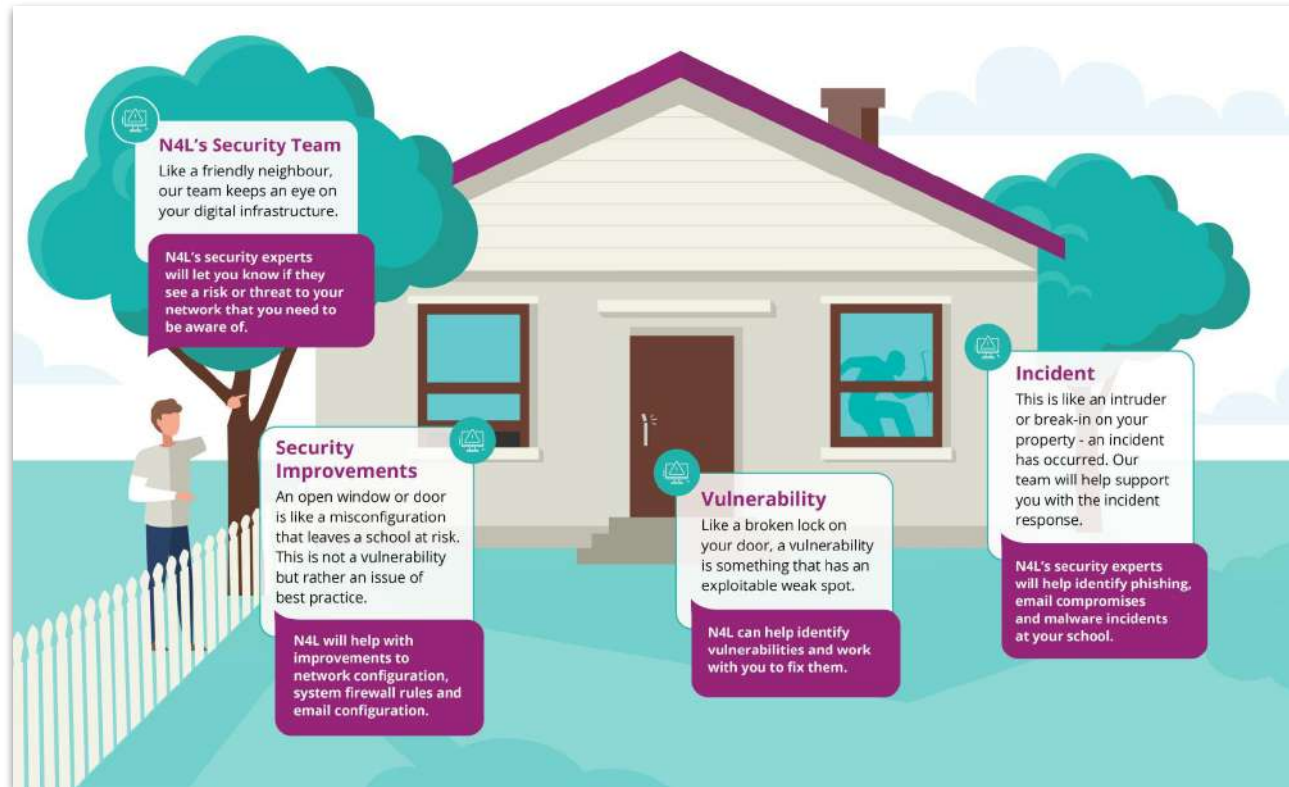

Self Service + Insights

**COMING
SOON!**

- **Internet Insights app:** support online safety education and pastoral care.
- **Network Monitor app:** see the performance of your internet connection and Wi-Fi network.
- **Filtering & Firewall app:** make changes directly to enable/disable access to websites and categories.

Cybersafety and security is a collaborative effort.

Three takeaways

CONNECT

1

Greenhithe school's connected to the internet **specifically designed for schools**

PROTECT

2

Greenhithe School has adopted N4L's recommended **Safe and Secure** Internet settings

SUPPORT

3

Greenhithe School is **supported by experts** in the safety and security space
