

29th May 2025

Dear Community Member

This letter is to inform you about the upcoming Workover activities at the Copper Moki Wellsite on Cheal Road, operated by Taranaki Ventures Ltd (TVL). Below are key dates and details to help minimise any inconvenience.

Timeframes

- Workover Rig equipment is moved to site: Transportation of heavy rig equipment to the Copper Moki Wellsite will take place over a 1-day period which is expected to begin between the 4th & 9th June 2025, however, please note that this is subject to operational changes.
- Workover operations: Workover activities at the Copper Moki Wellsite will commence and occur over a three-week period.
- Removal of equipment: After the workovers complete, the heavy rig equipment will be removed from the Copper Moki Wellsite over a 1-day period.

As outlined above, the start date for the transportation phase is expected to be between the 4^{th} & 9^{th} June 2025, however, please note that this is subject to operational changes.

Traffic Information

There is one designated traffic route for project-related vehicles, please see the attached, traffic route map. This route is:

- 1. For traffic travelling to the Copper Moki Wellsite the route will be via State Highway 3, then travelling West along Cheal Road.
- 2. For traffic from the Copper Moki Wellsite the route will be via Cheal Road travelling East, to State Highway 3.

A Traffic Management Plan has been developed to manage traffic moving to and from the site to ensure the safety and efficiency of the traffic route is maintained, page 2.

Yours faithfully,

Nick King
